

Butterfly Ministries, Inc.

Many are dragging around, bewildered, not sure where to turn. They ask, "Isn't there something better than just dragging around, scraping out a meager existence."

If the caterpillar could talk to us, I think he'd say the same thing!

But the butterfly is there to say, "Yes, there is hope! Yes, it is a struggle to go from defeat to victory but I am the symbol to the world that the struggle is worth it."

God made the caterpillar. God made the butterfly. Anything is possible with God.

There is hope!
